

## Genetic Testing Report for the Detection of SARS-CoV-2 RNA by RT-PCR

**Name:** Ahmad Hassan Hamada

**Date of Birth:** 2009-11-21

**Sex:** Male

**Passport/ID No:** 558555618

**Reference No:** 8404157624155

**Swab Date & Time:** 2021-12-15 13:00

**Test Date & Time:** 2021-12-17 12:56:00

**Sample Type:** Nasal Swab

**Laboratory:** Manchester, United Kingdom

**Flight No:** N/A

### RT-PCR Test Service:

The aim of this procedure is the multiplex real-time detection of RNA from the SARS-CoV-2 virus, based on the reverse transcription polymerase chain reaction (RT-PCR).

Our testing services use CE marked sample extraction and PCR detection products and operates under the ISO15189 medical laboratory standard with UKAS accreditation underway. Results generated from RapidityDX/Protein Technologies testing services are accepted by Public Health England.

### Result

Your coronavirus test result is **NEGATIVE**. You did not have the virus when the test was performed.

- If you received this result as part of our **Test-To-Release** scheme you may leave quarantine on your 5<sup>th</sup> day from arriving to the UK once you have received this certification.
- This test certificate is suitable for use as a **Fit-To-Fly** document.
- If you were self-isolating as an **International Arrival** you may stop self-isolating after your 10<sup>th</sup> day from arriving to the UK.\*  
Note\*: You must have received a negative result for both the 2<sup>nd</sup> and 8<sup>th</sup> day test. If this was your 2<sup>nd</sup> day test you must continue self-isolating until you have completed the 8<sup>th</sup> day test and finished the 10 days of quarantine.

### Guidance

You should self-isolate if:

- You get symptoms of coronavirus (you should get an NHS coronavirus test and self-isolate until you get the results).
- You're going into hospital (self-isolating until the date you go in)
- Someone you live with tests positive
- You've been traced as a contact of someone who tested positive

For further advice on when you might need to self-isolate and what to do, go to [www.nhs.uk/conditions/coronavirus-covid-19](https://www.nhs.uk/conditions/coronavirus-covid-19) and read 'Self isolation and treating symptoms'.

It is a legal requirement to self-isolate when you arrive in the UK from a non-exempt country, territory or region. If you're contacted by the enforcement authorities or the police after you have received this negative result please show them this notification.

### Test Provider Details

Name and Surname: Dr. Tariq Ali

Checked: Jordan J Wrigley

Result of the detection of SARS-CoV-2 RNA

**NEGATIVE**

This document is the property of Protein Technologies limited. It is forbidden to distribute, totally or partially, without the proper authorisation.

## Negative Test Result

Your coronavirus test result is negative. You did not have the virus when the test was done. If you were self-isolating as an international arrival you may stop self-isolating.

You should self-isolate if:

- you get symptoms of coronavirus (you should get an NHS coronavirus test and self-isolate until you get the results)
- you're going into hospital (self-isolating until the date you go in)
- someone you live with tests positive
- you've been traced as a contact of someone who tested positive

For advice on when you might need to self-isolate and what to do, go to [www.nhs.uk/conditions/coronavirus-covid-19](https://www.nhs.uk/conditions/coronavirus-covid-19) and read 'Self-isolation and treating symptoms'.

It's a legal requirement to self-isolate when you arrive in the UK from a non-exempt country, territory or region. If you're contacted by the enforcement authorities or the police after you have received this negative result please show them this notification.

---

## Positive Test Result

Your coronavirus test result is positive. You had the virus when the test was done.

If you have not had symptoms of coronavirus, you must self-isolate for 10 days from the day after your test date. If you have symptoms of coronavirus, you must self-isolate for 10 days from the day your symptoms started, if earlier than when you took your test. (The day after symptom onset or test date is counted as the first full day of self-isolation.)

People you live with or are travelling with should also self-isolate for 10 days from the day after you took a test.

You may be contacted for contact tracing and to check that you, and those who you live or are travelling with, are self-isolating.

You must not travel, including to leave the UK, during self-isolation.

Contact 111 if you need medical help. In an emergency dial 999.

---

## Unclear Test Result

Your coronavirus test result is unclear. It's not possible to say if you had the virus when the test was done.

You must, by law, continue self-isolating for the remainder of your self-isolation period as an international arrival travelling to the UK from a non-exempt country, territory or region. You may be contacted to check that you are self-isolating.

If you want to shorten your self-isolation period you will need to take another test for international arrivals. For more information, go to <https://www.gov.uk/guidance/coronavirus-covid-19-test-to-release-for-international-travel>.
